WORK & SAFETY FOOTWEAR

au.rs-online.com

The correct fit means a safer, more comfortable boot.

Blundstone

Since 1870

At RS Components, we're big on work safety. That's why we're proud to stock the iconic Blundstone range of Australian, quality footwear.

For over 150 years Blundstone has been crafting reliable and durable boots to suit hard-working Australians. Since 1870 Blundstone has made the toughest 'no-nonsense' footwear. Decades of innovative design and production means Blundstone now oversees a global supply chain, bringing together the best ideas, materials and designs to create a wide range of footwear.

Blundstone safety boots offer outstanding comfort without compromising on protection. Often made for specific conditions, safety boots are all about hardcore features that are built around keeping feet secure - in all kinds of environments. These fit for purpose features includes SPS Max Comfort system, protection from heat, penetration, chemicals, oils and fats; water resistant uppers, XRD® Technology and slip resistant outsoles.

The boots and shoes in Blundstone's work and safety series come in a range of elastic sided, lace up, and zip sided designs. They also manufacture a range of safety and soft toe gumboots at their Hobart factory. All Blundstone boots are engineered to provide the wearer with a comfortable experience, ready for long days on the job. With such as extensive range Blundstone makes it easy to select the right boots for every work situation. Blundstone boots are available in various styles and colours for men & women.

Selecting the correct footwear

Safety footwear sold in Australia must comply to Standard AS 2210.3:2019, but not all safety boots are the same. Here's how to pick the correct pair:

- 1. FIT FOR PURPOSE** - Choose appropriate footwear for the intended use, paying particular attention to the underfoot conditions.
- 2. SAFETY TOE CAP** - Both steel and composite toes provide safety for different industries. It's important to select the right safety toe for the conditions.
- 3. QUALITY UPPER** - This allows the footwear to be breathable, protective and supportive, whether it is leather or material.
- 4. SOLE DESIGN + MATERIAL** - Ensure the tread offers suitable slip resistance. The material is also important for heat resistant properties.
- 5. DESIGN** - Do you need increased ankle or calf protection? Do you need a lightweight option?

ELASTIC SIDED SERIES SAFETY BOOTS

Pull-on, kick-off laceless convenience. Total foot safety and Blundstone comfort. These work overtime.

Blundstone 172 Brown premium oil tanned leather elastic side safety boot

- The #172 features a protective kick guard to protect the leather, along with a defined heel to keep you stable while climbing and descending ladders.

NON-SAFETY SERIES BOOTS

Not all work requires boots with a safety toe cap – but that doesn't mean they can't still be tough as nails. Our work boots are ideal for everything from weekend gardening to industrial & factory work where a steel toe cap isn't required.

Blundstone 600

Brown premium leather elastic side boot

- The #600 is built for comfort, with a soft brown leather upper and leather lining.
- It also features hidden stitching in the heel for added durability.
- Brown premium leather elastic sided boot.
- Leather lining makes it easier to slide on and off.
- V-cut upper reduces stitching exposure.

GUMBOOT SERIES

If you work in mining, the food industry or any job where you get your feet wet, you already know how valuable a good gumboot is.

Blundstone 024 Grey waterproof safety gumboot with Penetration resistant steel midsole

- Made to withstand the roughest and toughest working environments, the #024 are wide-fitting gumboots with a steel penetration-resistant midsole.
- Grey safety gumboot made to withstand harsh working environments like underground mining
- Steel toe cap and steel midsole for maximum protection
- PVC/nitrile compound that is chemical, oil and acid resistant
- Soft metatarsal pad to cushion the delicate metatarsal bones of your feet and reduce stress on pressure points while allowing full flexibility
- Removable Comfort Arch footbed with XRD® Extreme Impact Protection forepart insert provides superior comfort. Footbed is anti-bacterial, washable and breathable
- Wide fit and a heavy duty tread base for extra stability and a sole pattern that resists clogging, providing superior grip in most conditions

Refer to Sizing Guide on Page 2 for the Best Fit. All sizes Male/Unisex unless specified.

When to replace boots

All good things come to an end. Here are the key indicators that it's time to replace safety boots. It's important to ensure you are in the most appropriate safety footwear for their job.

There are 6 signs that footwear needs to be upgraded:

1. The toe cap is exposed.
2. The leather is torn, worn, split or damaged.
3. The soles have worn down and no longer provide adequate tread.
4. The boots have been subjected to significant impact or trauma.
5. They no longer provide comfort and have excessive wear.
6. They've been exposed to harmful chemicals or products.

Comfort Guarantee

Consumers can try a pair of correctly fitted Blundstone footwear for up to 30 days from the date of purchase from one of our approved resellers and if the footwear is not comfortable, they may return it.

To make a claim under this guarantee, they must return the footwear (at their own cost) to the store they bought them from. They must be accompanied by the original purchase receipt and the return must be made within 30 days.

Provided the footwear is not damaged, and they otherwise comply with the terms prescribed by this guarantee, they may choose between a full refund or a footwear exchange up to the original purchase price of the footwear as set out on the receipt.

6 Month Manufacturer's Warranty

We take great care in the manufacture of our products and offer a 6 month warranty on any products purchased directly from us or from any of our trusted resellers.

If, following an assessment, we determine that the footwear contains a manufacturing fault that renders it unsuitable for the purpose for which it was originally purchased, we will replace or repair them at our expense.

This warranty is void if the footwear has been used in a way that has caused damage to them beyond normal wear and tear. This includes, without limitation, the exposure of the product to caustic materials that may cause the footwear (or parts thereof) to break down.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. Consumers are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. They are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

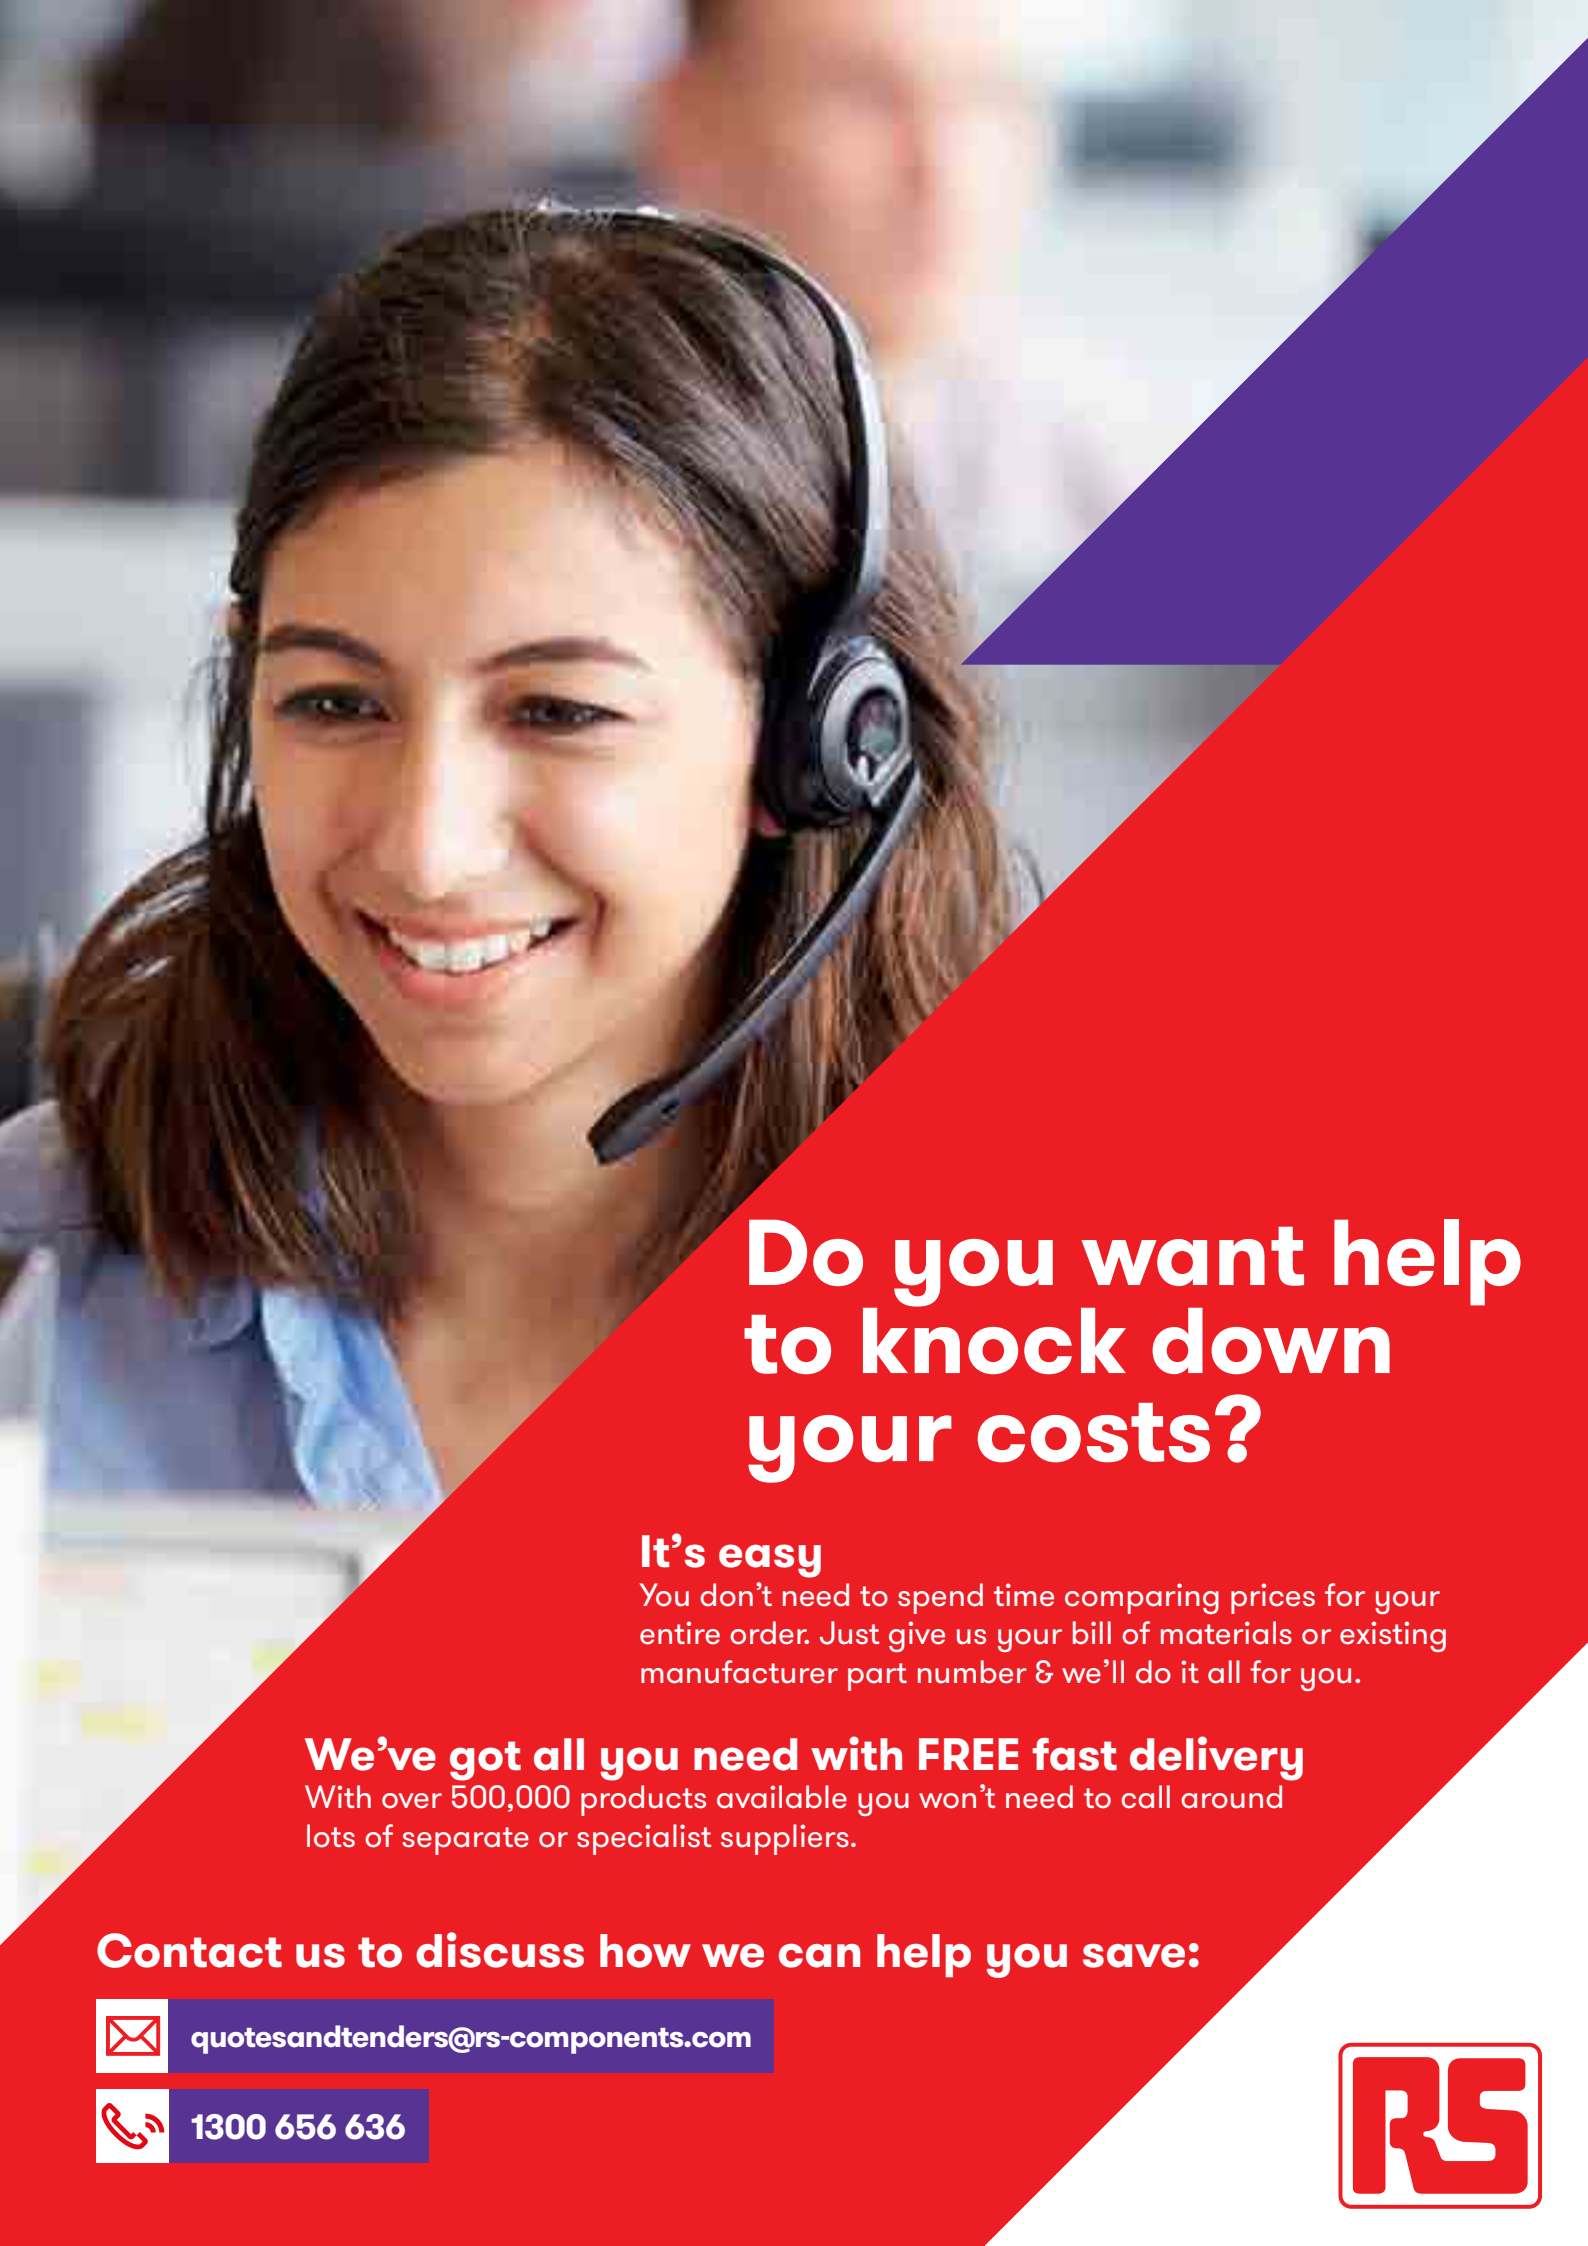

More styles available in our extensive range. Shop now at au.rs-online.com
